Press Release

DuoShare Releases Address Quality Integrator Designed for QuickBooks®

Dallas, Texas, June 1, 2006: DuoShare, Inc., a provider of Address Quality Services, announced the release of DuoShare Address Quality Integrator designed for QuickBooks today. With the introduction of DuoShare Address Quality Integrator, DuoShare now makes address quality available to QuickBooks 2006 users, providing accurate and up-to-date address information for addresses stored in QuickBooks.

Using the DuoShare Address Quality Integrator, QuickBooks addresses are verified to the mailing delivery point and standardized using DuoShare's USPS® certified processes. Addresses that could not be verified are marked and can be corrected interactively. When individuals and businesses move, DuoShare automatically changes the address to reflect the move, saving manual data entry, phone calls, lost customers, and returned mail.

The DuoShare Address Quality Integrator also includes the ability to prepare mailings for discount postage. Preparing discount mailings using corrected QuickBooks data eliminates extra work and can significantly reduce postage costs for First-Class Mail™ (minimum 500 pieces) and Standard Mail™ (minimum 200 pieces). As a part of DuoShare's Address Quality Services, the company also provides the paperwork required to submit bulk mail to the USPS.

QuickBooks is the nation's no. one selling accounting software package with more than 3 million small business customers and more than 250,000 accountants who use and support it. Building on Intuit's trademark ease of use, QuickBooks 2006 simplifies key business tasks, saves businesses time with new inventory management and accounting controls and delivers faster performance for mid-market businesses. QuickBooks 2006 also adds a single, visual view of an entire business and key tasks, customized for each company's needs so information is never more than two clicks away.

For more information on the QuickBooks 2006 line-up of products and services, please visit www.quickbooks.intuit.com. Information on QuickBooks compatible software, including DuoShare Address Quality Integrator can be found at the QuickBooks Solution Marketplace by visiting <http://marketplace.intuit.com>.

DuoShare has integrated address quality best practices with QuickBooks to save users time and money, and to protect the value of client, vendor, and employee addresses stored in QuickBooks. For more information about DuoShare Address Quality Integrator designed for QuickBooks, call or visit us on the web at <http://duoshare.com>.
